SUPPLY CHAINS

How can we ensure our purchases create a fair and sustainable world? We don't realise that as consumers, we can have an enormous impact in creating a fairer society and a more sustainable future for our planet. This year the Mercy Youth Awards art competition encourages students to think about the choices they make when purchasing products.

Ethical supply chains work to produce products and services in a way that treats the environment, and all involved ethically, considering economic, environment and social responsibility factors.

THE STUDENT'S CHALLENGE IS TO:

Create a visual representation (eg artwork/photo/cartoon/collage) that shows "What is an ethical supply chain?" You could investigate the supply chain of one of your favourite products, like chocolate, and make a poster that illustrates the supply chain issues for that product.

1. Upload your entry to www.mercyfoundation.com.au
2. Briefly explain your entry 100 words
3. Read information provided on ethical supply chains & answer our quiz about supply chains.

Visit our website www.mercyfoundation.com.au to find out more about supply chains and practices, to increase your own knowledge, and learn how you can contribute to making a difference to our world.
